Remarks

This Henderson Road property sits in the heart of Jackman, tucked away on a private gravel road. It features two buildings. The first is Wired Horn Camp, set on a full foundation and fully remodeled inside. With a full bathroom, built-in queen bunks, a kitchenette, and a dining/living area, it's perfect for a getaway or a cozy home. It includes an Empire heater in the basement (accessible from outside) and a Rinnai heater in the main living space. The second is a modular home built in 2008, also on a full foundation with access from inside and out. It offers a woodstove in the basement, electric heat upstairs, an open-concept kitchen, dining, and living area, plus two bedrooms and a full bath. Just a short walk away is a deeded right of way to the Moose River, where you can swim, fish, or enjoy nature's beauty, from sunsets to eagles and loons. Jackman is a hub for outdoor recreation, with nearby trails for hunting, fishing, snowmobiling, and ATVing. Whether you're after a permanent home or a peaceful retreat, this could be the perfect spot.
